PROSPECTUS.

The Exhibition, which it has been decided to hold in Wolverhampton in the summer of 1902, will be the most important ever held in England since the great Jubilee Exhibition held in Manchester in 1887.

The undertaking has already met with most hearty and widespread support from all classes. The Corporations of Wolverhampton and other important Municipalities have given the undertaking their support, and the civic heads have become Vice-Presidents of the Exhibition.

The Guarantee Fund now amounts to £28,000.

The site of the Exhibition, which extends to over thirty acres, is part of the beautiful West End Park of Wolverhampton, which has been granted by the Corporation, as well as the adjoining grounds, which have been most generously lent by Lord Barnard.

Wolverhampton, which takes its name from Wulfruna, the sister of Ethelred, is the centre of a thriving and populous district, in which a large variety of trades is carried on. It is within about twelve miles of the City of Birmingham, whilst Walsall, Bilston, Willenhall, Wednesbury, Dudley, West Bromwich, and a number of other important towns are within half an hour’s journey. The population within fourteen miles radius is fully one and a half millions, whilst Crewe, Manchester, Liverpool, and the great centres of industry in Wales are within easy access.

The London and North-Western, the Great Western, and the Midland Railway Stations are all within one mile of the Exhibition, which will be connected with them by a constant tramway service.

The scope of the Exhibition is a wide one, and will include a full illustration of the Engineering Industries and Industrial and Scientific Products of the British Empire and of Foreign Countries, special attention being given to the development of Electricity and of Means of Transport and Locomotion, for the display of which accommodation will be provided.

Provision will be made for the entertainment and healthy enjoyment of visitors. Instrumental and vocal music, illuminations, displays, sports and recreations of many kinds will be arranged, while restaurants and

tea and other refreshment rooms will be liberally provided in the grounds.

It is requested that all communications in regard to the Exhibition be addressed to the Department of Agriculture, Ottawa.

To the Honourable GEORGE ANTHONY WALKEM, of the City of Victoria, in the Province of British Columbia, one of the Justices of the Supreme Court of British Columbia; And to all to whom these presents shall come or in anywise concern:

GREETING:

WHEREAS Mr. Smith Curtis, of the City of Rossland, in the Province of British Columbia, a member of the Legislative Assembly of the said Province, in his place in the said Legislative Assembly, did, on the 19th day of March, A. D. 1902, move the following resolution:—

"Whereas Smith Curtis, member of the Legislative Assembly for the Rossland Riding of the West Kootenay Electoral District, has upon the floor of this House, on the 18th day of March, 1902, charged, 'the Honourable James Dunsmuir, Premier of the Province of British Columbia, with negotiating to give an excessive subsidy—and without the proper safeguards which he himself has heretofore declared to be necessary in the public interest—out of Provincial moneys and lands to the Canadian Northern Railway Company in aid of its building a line of railway from Bute Inlet to Yellowhead Pass, with a view either to the sale at a greater price than could otherwise be got of the Esquimalt & Nanaimo Railway and Comox & Cape

Scott Railway Companies' railways and rights, or to the bringing of a much larger traffic over the last-mentioned railway lines, such lines being intended under such negotiations to be utilised in making Victoria City the western or Pacific Coast terminus of said Canadian Northern Railway, and the said Premier Dunsmuir being a large shareholder in the said Esquimalt & Nanaimo and Comox & Cape Scott Railway Companies, whereby the said Premier Dunsmuir, as a shareholder in said last-mentioned railway companies, would reap a large advantage:

"And also charged the said Premier Dunsmuir and his colleagues, the Hon. D. M. Eberts, Attorney-General, the Hon. W. C. Wells, Chief Commissioner of Lands and Works, and the Hon. J. D. Prentice, Finance Minister, members of the Executive Council of the Province, with grave misconduct and gross and wilful neglect of their official duty to the Province in having Mr. J. N. Greenshields appointed and continued as solicitor and accredited agent of the Province in the above-mentioned negotiations, and in the preparation and approving of the proposed contract between the said Canadian Northern Railway Company and the Province while he was at the same time acting in a similar capacity for the said Canadian Northern Railway Company and its chief promoters, Messrs. Mackenzie & Mann, and also acting as their and said Canadian Northern Railway Company's solicitor and agent in negotiating with and through the said Premier Dunsmuir for the purchase of the said Esquimalt & Nanaimo Railway and the said Premier Dunsmuir's charter rights in the Comox & Cape Scott Railway Company:

"And also charged the Hon. E. G. Prior, Minister of Mines, with grave misconduct and gross and wilful neglect of his official duty to the Province after he became a Member of the Executive Council of the Province, and having a knowledge of the negotiations of said Premier Dunsmuir for the said sale of the Esquimalt & Nanaimo Railway, and of the dual capacity in which the said Greenshields had been, and was then, and is still, acting,—in agreeing to said negotiations being continued with his (the said Prior's) active co-operation, and to the continuance of the employment of the said Greenshields to act in said negotiations on behalf of the Province.

"And also charged, lastly, that in the foregoing negotiations and matters the said Premier Dunsmuir has wilfully and grossly neglected his duty to the Province, as above set forth, and for no other apparent good reason except that he would thereby reap a personal benefit through the sale of the said Esquimalt & Nanaimo Railway and of his charter rights in the Comox & Cape Scott Railway Company to, or by the user of such lines of railway as the western connection or link of, the said Canadian Northern Railway, whereby great loss is likely to result to the Province and grave discredit is being brought upon the Legislative Assembly, and the credit and good name of the Province is being greatly injured":

"And whereas such charges involve the honour of said Premier Dunsmuir and his colleagues in the Government, and should, in the public interest, be investigated:

"Therefore, be it Resolved, That a Select Committee of five Members of this House, to wit: Messrs. Martin, Ellison, McPhillips, Tatlow and Hawthornthwaite, be appointed to investigate the said charges, with power to said Committee to send for persons, papers, records and documents, and to examine witnesses under oath, and to report the result of such investigation to this House."

And whereas, Mr. Charles William Digby Clifford, also a member of the said Legislative Assembly, in his place in the said Legislative Assembly, on the said 19th day of March, A. D. 1902, moved, in amendment to the above-mentioned resolution, that all the words after "Resolved" be struck out, and that the following words be inserted in lieu thereof:—"That an humble address be presented to His Honour the Lieutenant-Governor praying him to appoint a Royal Commission to inquire into the truth or falsity of the above accusation, and (to) report":

And whereas the said amendment was put and carried by a vote of thirty-three members for the amendment to a vote of two members against the amendment:

And whereas the said first-mentioned resolution, as amended, was then put and carried:

And whereas it is in the interests of the good government of the Province of British Columbia that full inquiry should be made into the matters contained and stated in the said above-recited resolution of the

said 19th day of March, A.D. 1902, and that the evidence to be taken on the said inquiry should be taken on oath:

NOW KNOW YE that, under and by virtue and in pursuance of chapter 99 of the Revised Statutes of British Columbia, 1897, being the "Public Inquiries Act," and of an Order of the Lieutenant-Governor in Council, approved on the 26th day of March, 1902, We, reposing especial trust and confidence in the loyalty and fidelity of you, the said George Anthony Walkem, have appointed you to be Our Commissioner for the purpose of making such inquiry as aforesaid, and We do authorise and require you as such Commissioner, with all convenient dispatch, and by and with all lawful ways and means to enter upon such inquiry, and to collect evidence, and to summon before you any parties or witnesses, and to require them to give evidence on oath, or on solemn affirmation, if they be parties entitled to affirm in civil matters, and to produce such documents and things as you may deem requisite to the full investigation and report of the statements and matters aforesaid.

And We hereby authorise and direct that the sittings of you Our Commissioner under this Our Royal Commission shall be held in the City of Victoria, in the Province of British Columbia, and We do require you to communicate to Us through Our Provincial Secretary, and also to the Honourable the Speaker of the Legislative Assembly, as well the said evidence and any opinions which you may think fit to express thereupon: And We do strictly charge and command all Our officers and all Our faithful subjects and all others, in their several places and according to their respective powers and opportunities, to aid you in the execution of this Our Commission.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the Great Seal of the said Province to be hereunto affixed: WITNESS, the Honourable SIR HENRI G. JOLY DE LOTBINIÈRE, K.C.M.G., Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this 26th day of March, in the year of Our Lord one thousand nine hundred and two, and in the second year of Our Reign.

LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

RULE 59.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, or Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such notice to be published as follows:—

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of

Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, together with the notices published. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10½ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901 (see Journals, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

A By-Law to enable the Stave Lake Power Company, Limited, to sell electric current within the corporate limits of New Westminster.

WHEREAS the Stave Lake Power Company, Limited, a body corporate, is desirous of entering into the City of New Westminster for the purpose of supplying electric power for industrial purposes, and other purposes incidental thereto, and it is expedient that such permission be granted the said Company upon the terms and conditions hereinafter set out:

Therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:—

1. In this by-law the word "Company" shall mean the Stave Lake Power Company, Limited, its successors and assigns; the word "Corporation" shall mean the Municipal Corporation of the City of New Westminster, and the word "Council" shall mean the Council of the said Corporation.

2. The said Company may construct, erect and maintain, and there is hereby granted to the said Company, under and subject to the terms, conditions and covenants hereinafter set forth, permission to construct, erect and maintain its poles, and string and operate a line or lines of wire along the sides and across or under any public highway, street or bridge within the limits of the City of New Westminster, and to do all things which may be necessary in the supplying of electrical current for industrial power and heating purposes during the term of fifty years from the date hereof.

3. This by-law shall not grant unto the Company the right or privilege of supplying power for or operating an electric lighting business within the corporate limits during the said period of fifty years, but any person, firm or corporation who is a customer of the Company, and is using for purposes other than the production of light and heat, power supplied by the

Company to the extent of at least twenty (20) horsepower, may use power supplied by the Company for the purpose of generating light for the lighting of the business premises of such person, firm or corporation, upon which the power supplied by the Company for power purposes as aforesaid is used.

4. The Company may, during the said period of fifty years, use such poles upon the public streets as may from time to time be erected or owned by the Corporation for the purpose of carrying the Company's wire or wires, under the terms and conditions, that is to say:—

(a.) The Corporation may, without any charge, cost or liability, but subject to such reasonable and proper conditions as to position of wires and supervision of work as the Company may impose, use any pole or poles the property of the Company, and erected by it within the corporate limits, for the purpose of carrying any wire or wires belonging to the said Corporation for its own purposes only:

(b.) Before placing any wire or wires upon any pole or poles belonging to the Corporation, the Company shall obtain the consent in writing of the Mayor, Chairman of the Board of Works and Chairman of the Light Committee of the said Council for the time being, and it shall be lawful for the said Mayor, Chairman of the Board of Works, and Chairman of the Light Committee of the Council aforesaid, in granting such consent, to impose such reasonable and proper conditions as to position of wires and supervision of work as it may deem fit:

(c.) The Company shall pay to the Corporation—

(1.) In each and every calendar year up to and including the year 1910, for each and every pole erected, maintained or used by the Company, other than poles belonging to the Corporation, ten (10) cents per pole per annum, and for each and every pole belonging to the Corporation, used by the Company for the carrying of any wire or wires, five (5) cents per pole per annum:

(2.) In each and every calendar year from the year 1911 to the year 1920, both inclusive, for each and every pole erected, maintained, kept or used by the Company, other than poles belonging to the Corporation, twenty-five (25) cents per pole per annum, and for each and every pole belonging to the Corporation used by the Company for the carrying of any wire or wires, twelve and one-half (12½) cents per pole per annum:

(3.) In each and every calendar year from and including the year 1921 to the end of the full term of fifty years, as hereinbefore provided, for each and every pole erected, maintained, kept or used by the Company, other than poles belonging to the Corporation, fifty (50) cents per pole per annum, and for each and every pole belonging to the Corporation used by the Company for the carrying of any wire or wires, twenty-five (25) cents per pole per annum:

And the above payments shall be made by the Company during the month of December in each year upon the poles actually erected, kept, maintained or used by the Company on the first day of October in such year.

5. The permission hereby granted by the Corporation to the Company to construct, erect and maintain poles and conduits, and string and operate wires and cables along the sides and across or under any public highway or bridge within the limits of the Corporation shall be subject to the following conditions, viz.:—

(a.) The line poles shall not be less than 35 feet in height above the surface of the ground, or eight inches in diameter at the top where the arm is affixed to the pole, and shall be clean, straight, dressed and painted and set firmly in the ground, to the satisfaction of the Foreman of the Board of Works for the time being of the said Corporation:

(b.) The said Company shall and will from time to time and at all times during the erection of any poles, the laying or stringing of any wires, and during repairs to and alterations of the same, take due care and proper precaution for the safety and protection of foot and other passengers and of horses and carriages passing along the streets, lanes, bridges or highways of the Corporation on which the erection, laying, stringing, construction, alteration or repair is being performed, and will not unnecessarily interfere with or impede the public right of travelling on such public highways, streets, lanes and bridges, nor in any way obstruct the entrance to any door or gateway, or interfere with the free access to any building:

(c.) The Company shall, before beginning any work within the limits of the Corporation hereunder, and from time to time as and when the system may be altered or extended, file with the Corporation a plan showing the public highways, streets, bridges or other public places in which it proposes to erect poles, string wires or cables, lay conduits, and the particular part thereof it proposes to occupy for each such purpose, preference being given as far as possible to the use of lanes, side-streets or alleys, and shall at the same time present and file with the Corporation specifications of the electrical conductors, wires, poles and conduits proposed to be erected or laid by it, specifying the materials and dimensions thereof, the height of the wires, the depth of the conduits, the methods of insulation, and the devices to be used for the protection of life and property, and the said poles, wires, cables or conduits shall be erected, strung or laid, as the case may be, in such places only as shall be agreed upon by the Corporation and not otherwise:

(d.) That the poles, wires and conduits hereafter to be erected in pursuance of such privilege shall not be used by the Company for any purpose other than for the purposes hereinbefore mentioned, and the Company shall not permit or allow any other person, persons or corporation, other than the said Corporation of the City of New Westminster, to use or in any way utilise the said poles, wires, conduits and other structures to be placed on said streets in pursuance of this agreement for any purposes whatsoever, without the consent of the Corporation, by resolution of the Council, first having been obtained:

(e.) The main transmission line of the Company, when carried through the City of New Westminster, shall be carried at a height not less than 50 feet above the ground, and shall be carried along such location as may be approved by the Committee mentioned in sec. 4, sub-s. (b), hereof; the voltage to be carried on any wire forming part of the distribution system, and not being the main transmission line, shall not be greater than 2,500 volts, without the written consent of the said Committee:

(f.) The Company shall provide all insulators, safety devices and lightning arresters necessary for the proper insulation of their lines, so as to render them safe to the public, such insulation or protection to be under the inspection and subject to the approval of the Committee mentioned in sub-section (b) of section 4 hereof:

(g.) Prior to the erection or repair of any poles by the Company which may render it necessary to dig into or in any manner interfere with any streets or lanes, or a portion thereof, the Company shall notify the Corporation of their intention to erect or repair as aforesaid, and shall obtain the consent in writing of the Committee mentioned in sub-section (b) of section 4 hereof, and the Company shall, without delay not in any case to exceed 72 hours, remove all earth, sand, debris, dirt or other material, and put the street or land in as equally a good state of repair and condition as it was before it was broken or dug or disturbed:

(h.) The Company shall not cut down or mutilate any shade, fruit or ornamental trees:

(i.) The Company shall, whenever required so to do by the Corporation, place their wires underground, as may be directed by the Council, and subject to such conditions as may be then imposed by the Council, and remove the poles and wires erected and maintained hereunder, and in such event the Company shall have no claim for compensation, damage or otherwise, in respect of such requirement, but this clause shall not be put into operation unless and until all companies, persons and corporations, other than the said corporation of the City of New Westminster, conveying electrical energy for light, heat, power or other electrical purposes shall be compelled or agree also to place their wires underground:

(j.) Whenever it shall be necessary in grading any street or land of said City, or in building any sidewalk, or making any other improvement thereon, to move any pole or poles belonging to the Company, or on which any line or lines, wire or wires, belonging to the Company shall be stretched or fastened, the Company shall, upon receiving 48 hours' notice from the Corporation's Engineer, contractor or other person, having charge of such grading or other improvement, move such pole or poles; and if the Company upon such notice shall neglect or refuse to move such pole or poles, then such pole or poles shall be moved by the Board of Works of the said Corporation at the expense of the Company, and the Corporation shall not be liable to the Company for any loss or inconvenience caused or occasioned by such removal.

6. The Company shall and will from time to time, and at all times, indemnify and save harmless the Corporation from any injury arising from any casualty or accident to person or property by reason of any neglect or omission to keep the poles and wires of the Company in a safe condition, and from all valid claims against the Corporation for damages caused by said wires or poles, or by any works, alterations, repairs or improvements in connection with the works herein contemplated.

7. The privileges hereby granted to the Company shall absolutely cease and determine after the expiration of five years from the date hereof, unless prior to the expiration of such term of five years the Company shall have so far completed their work as to be ready to commence delivering electrical energy and power within the City of New Westminster, B. C.

8. That nothing in this by-law contained shall be deemed to confer, or be construed as conferring, any exclusive right or powers on or to the said Company.

9. This by-law may be cited as the "Stave Lake Power Privileges By-Law, 1902."
